

BULK WATER CONTRACT FOR 2020

FALL RIVER VALLEY COMMUNITY SERVICES DISTRICT

The Fall River Valley Community Services District is responsible for water delivery to residents of the District, and the District recognizes the need to have all water customers contribute to the financial stability of the District. Bulk water sales include all water taken with the District's authorization from hydrants connected to the District's water distribution system. Taking water from hydrants without a bulk water contract or a prior written agreement with the District is theft pursuant to California law, including, but not limited to, Penal Code Sections 498, 624 and 625, and will be referred to the proper authorities for prosecution.

The District will allow water contractors to collect water from *selected District hydrants* under the following conditions:

1. The water contractor must have in effect a contract with the District, to be renewed on an annual basis, before collecting water from a District hydrant;
2. The water contractor must have a vehicle capable of carrying the weight of water sold, and carry a copy of this contract, and a driver's license and insurance appropriate for the weight of water collected;
3. The water contractor must collect the water from designated hydrants and at no other location in the District;
4. The water contractor must either request the hydrant be opened by District staff or be trained to collect water and pay an appropriate training fee;
5. The water contractor must notify the District at least 24 hours before collecting water from the designated hydrant.

The bulk water sales program has the following costs for contracts within the year **2020 (fees subject to change on an annual basis)**:

Long Term Construction Bulk Sales (using a continuous metered hydrant connection)

Annual Contract Fee: \$100

Meter Deposit (Returned at end of project unless the meter is damaged): \$1,200

Training Fee (if needed): \$70

Water Cost per Gallon: \$0.03/gallon

Short Term Construction or Irrigation Bulk Sales

Annual Contract Fee: \$100

Training Fee (if needed): \$70

Water Cost per Gallon: \$0.03/gallon

As a water contractor, I agree to the conditions above, for the duration of this contract, and understand that collecting water without approval is theft and will be prosecuted. *Copies of contract must be kept in vehicle for inspection at any time.*
